Final Technical Report

Project Title:	
ISA/ICMC Project Number:	
Principle Investigator(s):	
Contact Email:	
Contact Phone Number:	
Date:	
Current Project Period:	From: To:

1. **Executive Summary – How do we easily explain the results to our producers or stakeholders that is easily digestible in a magazine article, social, or at a board meeting.**

2. Outputs - Explain what you did, what was discovered, and what was learned because of the research or project.

- Report outputs completed during the reporting period that contribute to the goals and objectives of the project (do not include publications here, they are to be reported separately in the block below).
- Do not include findings or conclusions that have been reached; these are to be reported separately as changes in knowledge in the outcomes section.

Narrative is limited to 3,200 characters and spaces.

3. Outcomes/Impacts - Explain the beneficial results (potential yield increase, financial benefits, new use, pollution, or erosion reduction, change of behavior and awareness, etc.) of this project for farmers and stakeholders and/or consumers.

- Describe how findings, results, techniques, or other products that were developed from the project generated or contributed to an outcome/impact.
- Describe the results of the project evaluation. Indicate how resources and activities helped to produce project outputs and achieve project outcomes and impacts.
- This report narrative is required of all projects.
- Narrative is limited to 3,200 characters and spaces.

4. Publications/Extension/Outreach - Describe how findings and results were shared. Report number of website hits, number of meetings where results shared, number of people attending meetings, etc.

- List publications, documents, meetings or events that are specific to the project during this reporting period.
- Include only those publications, documented meetings not previously reported.
- Include research and extension publications, handouts, electronic publications, websites, etc.
- If there are no publications, documents or meetings to report for the period, leave this field blank.
- Narrative is limited to 3,200 characters and spaces.

5. Project Modifications - Describe any significant changes to project content from original funded project proposal.

Select one of the following options:

____ Not applicable for this project and/or nothing significant to report.

_____Significant project modifications entered in the box below (bring up explanation box).

Explanation:

6. Project Completion Measurement. It is important to ISA and ICMC that projects are completed on time and within budget.

Select from the following options:

_____Project completed on originally contracted schedule and within budget.

_____Project delay explanation for any extension including length of extension or any modifications in budget (bring up explanation box).

Explanation:
